

Masco Youth Hockey Mid-Season Feedback Form

The Board of Directors is soliciting feedback on the mid-season performance of your son's/daughter's teams and the overall program. In the past we provided questionnaires at the end of the season, but found that it is too late for a coach to adjust their approach once the season is over. Our hope is that this short questionnaire will provide coaches with feedback (positive and negative) that will aid them in working with our children. We truly want to be responsive to the members of our organization, and hope that this new approach will help to improve our Program!

Before making your comments, please recall that each coach is a volunteer who sacrificially offers his time and services to provide your children with the opportunity to play hockey. If your coach is doing a great job, please don't hesitate to let us know – we're sure they would appreciate words of affirmation and encouragement.

Thank you for your cooperation with this effort!

Team: _____

- 1) Do you have any comments about how the coaches and players interact? Is appropriate level of discipline maintained? Is tone and manner of coach appropriate when addressing players?**

- 2) Is communication of the team schedule provided in an accurate and timely fashion?**

- 3) Are practices well organized? Are the number of practices and practice times appropriate for players of your son's/daughter's age?**

- 4) Are you noticing improvement in your son's/daughter's individual skills? If not, what suggestions can you provide that might aid in their development? (Be certain to recognize that player's attendance at practices, level of attentiveness and level of effort are largely responsible for player's skill development.)**

- 5) Are team concepts being introduced, practiced and applied at a level appropriate for your son's/daughter's age?**

- 6) Any other general comments you'd like to offer? These may relate to head coach, assistant coaches, league affiliations or Masco Youth Hockey in general.**

Please mail the form(s) to:
